

Single Window Approval System for Industries

Posted On: 05 FEB 2021 3:06PM by PIB Delhi

The Central Government is working on setting up a Single Window System for clearances and approvals of industry in the country. Despite the presence of several IT platforms for investing in India such as in departments of the Government of India and State Single Window Clearances, investors need to visit multiple platforms to gather information and obtain clearances from different stakeholders. To address this, the **creation of a centralized Investment Clearance Cell** which would provide end-to-end facilitation support, including pre-investment advisory, information related to land banks and facilitating clearances at Central and State level was proposed and the same is also a Budget Announcement 2020-21.

The cell is being planned as a **One-stop digital platform** to obtain all requisite central and state clearances/ approvals required to start business operations in India. The Investment Clearance Cell will be a National portal that integrates the existing clearance systems of the various Ministries/ Departments of Govt. of India and of State Governments without disruption to the existing IT portals of Ministries and will have a single, unified application form. This will **eliminate the need for investors to visit multiple platforms/ offices** to gather information and obtain clearances from different stakeholders and provide time-bound approvals and real time status update to investors.

This information was given by the Minister of State in the Ministry of Commerce and Industry, Shri Som Parkash, in a written reply in the Rajya Sabha today.
